Clean-up was ordered and I contacted the Director of Code Enforcement for Beaufort County. I provided recommendations, which she relayed to their Facilities Management Director to prevent further dumping.

2. I responded to the intersection of Bluffton Parkway and Hampton Parkway in re to a heavy sediment spill. The violator was not present, however, the Project Manager for the Reed Group assisted with the clean-up of the spill by providing a front end loader and dump truck to mitigate the spill.
3. Worked with the Stormwater Division on developing an enforcement process in accordance with the Municipal Separate Storm Sewer Systems Program.
4. I received a complaint in re to a possible business operating out of 90 Bridge Street and other possible UDO and Muni-Code Violations. Contact was made with the violator and corrective measures were taken.
5. I received a request on how the Town would be handling political signs. After speaking with appropriate Town Staff and learning the Town Manager did not give any special permission for any political signs to be displayed, I passed down a process to my command and the Patrol Lieutenants.
6. I received a complaint from staff in re to illegal dumping on Benjamin Dr. Upon further investigation, it was determined that the property owner was using the property as storage. After speaking with staff, I was provided the complainants information and spoke with them. I was able to determine this was a case in violation of the IFC. I sent an email to the Fire Marshal and advised to inform me if this case may include some UDO and or BL issues.
7. I worked with the Business License Department in re to an updated window decal proposal, to include numbers and quotes from a vendor.
8. I received a complaint in re to possible violations at 199 Bluffton Rd. involving a trailer belonging
